- Operating temperature up to 50°C
- Panel heating in case of frost
- Operating temperature down to -30°C
- Rugged construction resistant to dust and water
- Optional: Windows OS, Integrated media player, Touchscreen, 4G module

## Description

TV and many years in IPTV, we created low-investment and low operational costs LED panel system controlled by state-of-art ANTIK DS Management System- MaxIM. You can either upload ready to publish campaign delivered by your advertising clients or build your own campaign.

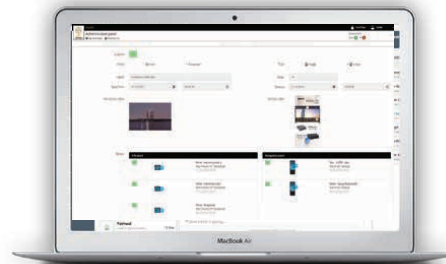

To design the campaign, all standard multimedia components can be used – pictures, music, video (even in combination with live TV channel broadcasting) all mixed with many eye-catching effects. TV panels itself are controlled by low-power Antik DS set- top boxes. In comparison to Intel PC based panels, in each project you save significant investment money, not mentioning dramatically lower power consumption and quiet operation (no fan on set-top box necessary).

## Content Management System

Manage the information displayed on navigation panels. Make sure your guests get right guidance to be on time at the right meeting point. Easy operation enables very fast content update.

- Customizable size
- Tailor-made user info
- Adjustable content
